

Dear customer,

A500 Hanford to Tunstall road markings and targeted resurfacing

We're planning to replace the road markings and studs along the A500 between Hanford roundabout and Tunstall interchange. This will ensure the safety of the road is maintained for all users. We'll also be filling cracks in the surface as well as resurfacing where required. This will ensure a smoother surface and extend the life of the existing surface.

Our contractors, Kier, will carry out this work on our behalf between 21 September and 10 November.

We will complete the work overnight when traffic is lower to reduce the impact on road users and the local economy.

To minimise the impact of our work we will complete the work in several phases.

21 September to 29 September: A500 northbound closed from Etruria roundabout to Tunstall interchange, including all slip roads within the closure area.

6 October to 7 October: A500 southbound closed from Tunstall interchange to Etruria Roundabout, including all slip roads within the closure area.

8 October to 11 October, 15 October and 18 October to 19 October: A500 southbound full closure from Etruria roundabout to Hanford roundabout, including all slip roads within the closure area.

20 October to 27 October: will involve closing sections of Hanford roundabout in 3 phases to allow access to all areas.

28 October to 29 October and 1 November to 4 November: A500 northbound closed from Hanford roundabout to Etruria roundabout, including all slip roads within the closure area.

5 November and 8 November to 10 November: A500 southbound closed from Etruria Roundabout to Etruria Interchange, including all slip roads within the closure area.

During the closures signed diversion routes will be in place (please see diversion map). Access to emergency service vehicles will be maintained during the work. Our dates are subject to change due to unforeseen circumstances.

The A500 will be open as normal during the day. I apologise for any inconvenience during our work.

All our sites have strict safeguarding measures, in line with Public Health England guidance, to prevent the spread of COVID19 and none of our sites are open to the public, they are closely monitored, and the situation is kept under constant review.

Further Information

If you have any questions, or if you'd like you know about our work please contact us on 0300 123 5000. Or you can visit our website at www.highwaysengland.co.uk/roads.

Yours faithfully

Ryan Davies
Highways England Project Manager
